AF/ 2672 Patent Attorney's Docket No. P2380-505

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

FEB 2 3 2005 In Patent Application of

Savid G. Opstad et al.

Application No.: 09/306,888

Filed: May 7, 1999

For: AUTOMATIC SYNTHESIS OF

FONT TABLES FOR CHARACTER

LAYOUT

Group Art Unit: 2672

Examiner: Hwa C. Lee

Confirmation No.: 4127

LETTER REGARDING ORDER RETURING UNDOCKETED APPEAL TO EXAMINER

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

On January 11, 2005, the Board of Patent Appeals and Interferences issued an Order Returning Undocketed Appeal to Examiner (Paper No. 26) returning the above-captioned application to the Examiner for consideration of the Information Disclosure Statement (IDS) dated November 13, 2000. However, on February 13, 2001, the Office issued a non-final Office Action that included as an attachment a copy of a PTO 1449 form submitted with the November 13, 2000 IDS. Attached herewith is a copy of the February 13, 2001 Office Action and attachments. It is to be noted that the PTO 1449 form includes Examiner Havan's initials next to the single document listed (i.e., U.S. Patent No. 5,675,718), which indicates that the Examiner had considered this document.

Applicant believes the attached Office Action and attachments make it clear that the Examiner considered the IDS and document cited therein. It is respectfully

DETAILED ACTION

Drawings

The drawings in this application are accepted by the Draftsperson.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brock et al. (US patent no. 5,664,086).

- 1. As to claims 1, 11, 16, 26, and 29, the prior art Brock had:
- A.) The step of retrieving glyphs from a font which correspond to characters in a string of characters (col. 5, lines 25-67; col. 6, lines 1-13; fig. 22-23). Brock teaches a glyph comprises a unitary character on a piece of character and the character is a font. As discloses, Brock teaches this part of the claim.
- B.) The step of determining whether the font contains a predetermined data table that pertains to the layout of glyphs (col. 10, lines 53-67; col. 11; fig. 21-26). The base font in Brock contains a predetermined data table that pertains to the layout of glyphs. Furthermore, Brock discloses the font directory table having a list of offsets to the output font descriptors in the Font Description Table.

Art Unit: 2672

- C.) The step of automatically synthesizing the data table, based upon data contained in the font, if the font is determined not to contain the data table (col. 12, lines 31-38; fig. 27-29). Brock teaches the automatically synthesizing the data table when he discloses the algorithm as a pseudo-code form. Figure 29 of Brock discloses the steps of automatically synthesizing the font based upon available font.
- D.) The step of generating an image of the laid-out line of glyphs (fig. 15-17, 23-24, and 29). Figures 15-17 discloses an image of the laid-out of glyphs.

However, Brock fails to explicitly teach the step of laying out the glyphs in a line, in accordance with the data in the table. Nevertheless, Brock teaches the table Font Names is a table of strings for all the font names defined in the Font Directory. The Font Directory table is a list of offsets to the output font descriptors in the Font Description Table. Brock does not use the exact phrase of "laying out the glyphs in a line," but the functionality of the Font Directory table corresponds to the limitation. It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide the step of laying out the glyphs in a line, in accordance with the data in the table because Brock teaches the Font Directory table (col. 10 and 11; fig. 15-17, 23-25, and 29).

- 2. As to claims 4-5, 13-14, 20, 27, Brock discloses the annex file (col. 2 and 3; col. 5, lines 15-24; fig. 1). The annex file is the descriptor file in Brock. The functionality of the descriptor file is equivalent to the annex file.
- 3. As to claims 6-8, 17-19, 22-25, and 30-31, Brock discloses the font map (col. 6, lines 28-67; col. 7, lines 1-29; col. 11, lines 13-49). Brock teaches a mapping of design features for the glyph to the font-wide design features.

Application/Control Number: 09/306,888

Art Unit: 2672

4. As to claims 9-10, 21, and 28, Brock discloses the step of automatically synthesizing the

data table comprises the steps of retrieving data from the font and storing the retrieved data in a

table having a predetermined data format (col. 5-10; fig. 9-23).

5. The limitations of claims 2-3, 12, and 15 are analyzed as discussed with respect to claims

1, 11, 16, 26, and 29 above.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Inquiries

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thu-Thao Havan whose telephone number is (703) 308-7062. The examiner can normally be reached on 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Razavi can be reached on (703) 305-4713. The fax phone numbers for the organization where this application or proceeding is assigned are (703)308-6606 for regular communications and (703)308-9051 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-9500.
